Professor Willem J.M. Levelt
“The Generation of Single and Multiple Spoken Words”

Thursday, November 16th, 2000
5:15pm in Love Auditorium
Levine Science Research Center (LSRC)

Professor Levelt investigates how we generate meaningful speech and how we comprehend the speech of others. He is the founding Director of the Max Planck Institute for Psycholinguistics in The Netherlands, and Professor of Psycholinguistics at Nijmegen University. Dr. Levelt has published widely in psychophysics, mathematical psychology, linguistics and psycholinguistics. He has earned numerous awards for his research and is a foreign associate of the U.S. National Academy of Sciences.
